

Adobe Sign Integration

Objectives

- Setup the integration between LEXZUR and Adobe Sign

Steps

To set up the integration between Lexzur and Adobe Sign, you must first have a separate Adobe account and follow these steps:

- Go to adobe.com and sign in to your account, or create a new account and use the free trial option.

The image shows two screenshots from a web browser. The top screenshot is the Adobe Creative Cloud homepage, featuring a pink and blue gradient background. It promotes generative AI tools like Adobe Photoshop and Adobe Illustrator, powered by Firefly. A 'Sign In' button is highlighted in the top right corner. The bottom screenshot shows the Adobe sign-up process. The left side has a dark background with a cactus image and the Adobe logo. The right side is a white form titled 'Welcome to Adobe' where a user is completing their account. The form includes fields for first name (Albert), last name (Smith), date of birth (January), and country/region (Lebanon). There is a checkbox for 'Please contact me via email' and a 'Create account' button at the bottom right.

- After signing in to your Adobe account, you need to purchase Adobe Acrobat Sign, which will handle the digital signatures. Open the apps menu by clicking on the box icon in the top right corner of your account. Then, choose **Acrobat Sign**.

- Log in to your Adobe account and navigate to the "All Tools" tab. Select the **Adobe Acrobat Sign** app and click to **Get it**.

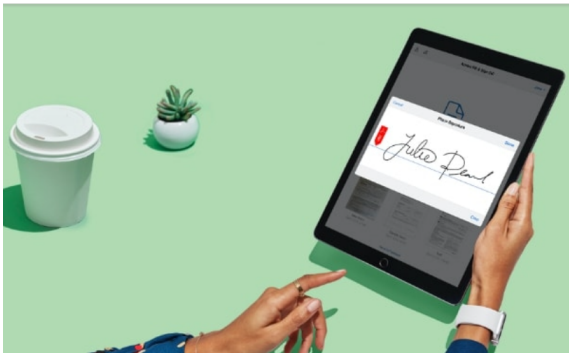

- Here, you can choose to purchase the app or start a free trial.

Your trial

 **Acrobat Sign**

Popular features include:

- ✓ Sign and collect signatures
- ✓ Track and send reminders
- ✓ Use e-sign in Microsoft 365 for no additional charge
- ✓ Collect e-signatures from web sites
- ✓ Send in bulk
- ✓ Integrations and APIs
- ✓ SSO and advanced authentications
- ✓ Industry-specific compliance requirements (HIPAA, FERPA, GLBA, and FDA 21 CFR part 11)

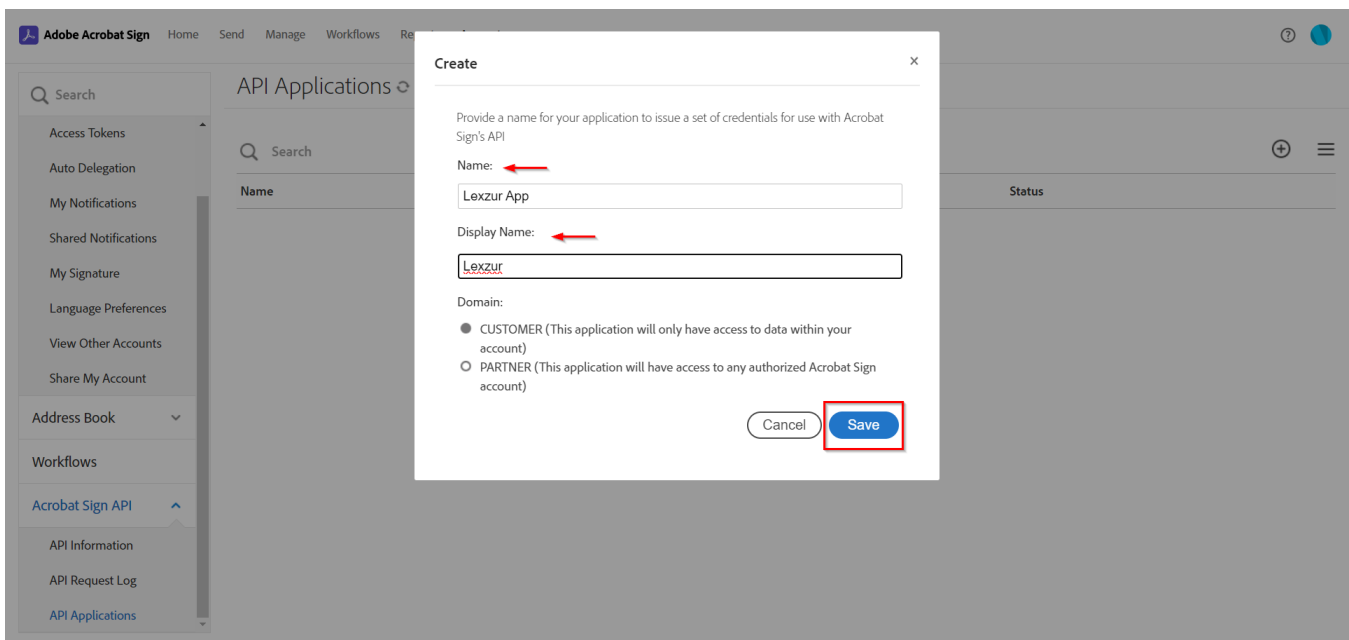

- From the "Adobe Acrobat Sign" Account, click on "Account" and select **API Applications** from the right panel

There will be a separate Adobe Acrobat Sign API application for every LEXZUR instance

- Click on the plus icon to create a new API application in your Adobe Acrobat Sign account.

- Provide a name for your application to issue a set of credentials for use with Acrobat Sign's API.
- After creating the API Application, select your app and click on **"Configure OAuth for Application"**

Name	Client ID	Created	Status
Lexzur App	CBJCHBCAABAA8js3tjb-QQL_LVYsty8jKXqZ-ZEH3Q	03/03/2024 09:04	ACTIVE

- Fill in the Redirect URI: <https://adobe.app4legal.com/adobe/auth> and the required scopes:

secure.na3.adobe.com/account/accountSettingsPage#pageId:API_APPLICATIONS

Configure OAuth

Client ID: CBJCHBCAABAA8js3tjb-QQL_LVYsty8jKXqZ-ZEH3Q

Redirect URI: <https://adobe.app4legal.com/adobe/auth>

Note: The redirectUri specified in your OAuth requests must belong to this list of uris. You can mention multiple uris as comma separated list.

Enabled Scopes

You must enable the scopes that you intend to request through the OAuth protocol. Please limit the scopes that you enable to the minimum set necessary for your application, which is one of the requirements for Certification.

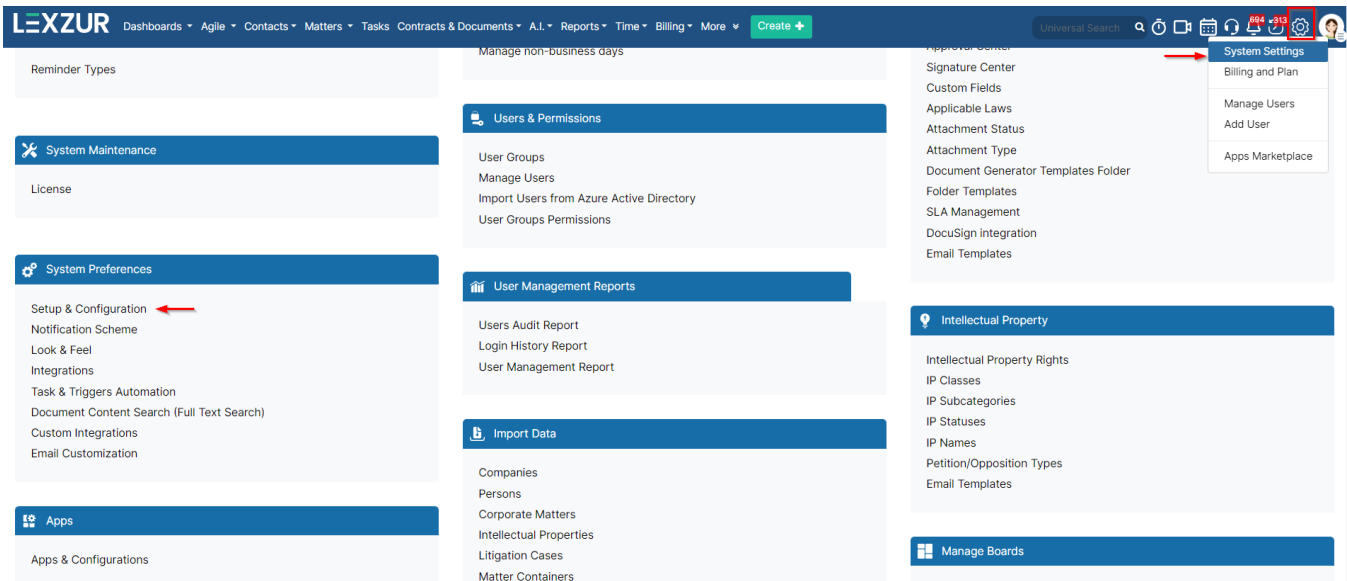

Please [contact support](#) if you need to change which scopes are enabled for your application.

Note that only Group Admins can approve OAuth requests that use the "group" scope modifier, and only Account Admins can approve OAuth requests that use the "account" scope modifier.

Enabled?	Scope	Modifier	Description
<input type="checkbox"/>	user_read	account	View users in your account
<input type="checkbox"/>	user_write	account	Create or manage users within your account
<input checked="" type="checkbox"/>	user_login	self	Login access - providing full access to any user in your account overriding other requests
<input checked="" type="checkbox"/>	agreement_read	self	Access documents & data on behalf of any user in your account
<input checked="" type="checkbox"/>	agreement_write	self	Manage the status of documents on behalf of any user in your account
<input checked="" type="checkbox"/>	agreement_send	self	Send documents on behalf of any user in your account
<input type="checkbox"/>	widget_read	self	View web forms on behalf of any user in your account
<input checked="" type="checkbox"/>	widget_write	self	Create, edit or publish web forms on behalf of any user in your account
<input checked="" type="checkbox"/>	library_read	self	View templates and document library on behalf of any user in your account
<input checked="" type="checkbox"/>	library_write	self	Manage the templates and document library on behalf of any user in your account
<input type="checkbox"/>	workflow_read	account	View workflows on behalf of any user in your account
<input type="checkbox"/>	workflow_write	account	Create workflows on behalf of any user in your account
<input type="checkbox"/>	webhook_read	account	View webhooks on behalf of any user in your account
<input checked="" type="checkbox"/>	webhook_write	self	Create or edit webhooks on behalf of any user in your account
<input checked="" type="checkbox"/>	webhook_retention	self	Permanently delete webhooks on behalf of any user in your account

1. user_login : self
2. agreement_read: self
3. agreement_write : self
4. agreement_send : self
5. widget_write : self
6. library_read : self
7. library_write : self
8. webhook_write : self
9. webhook_retention : self

- Now, go to your LEXZUR instance, click on "System Settings", then "Setup & Configuration".

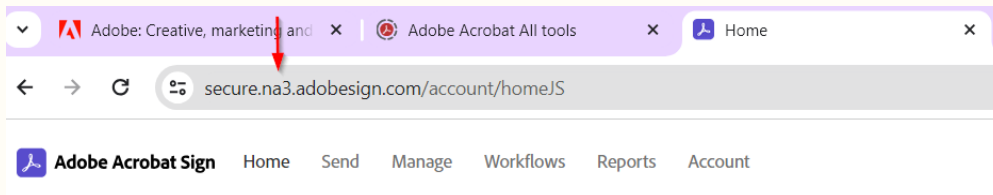

- Select "**Adobe Sign Integration**" from the right panel, and add the **Adobe Sign Client ID**, and **Adobe Sign Client Secret**, and specify the **Data Center Regions**.

Settings / Setup & Configuration

Property	Default Value	Actions
Adobe Sign Client Id	<input type="text" value="CBJCHBCAABAAirKs6cXAYAGTWsGga_jZD4pzyq8vhclH"/>	Save
Adobe Sign Client Secret	<input type="text"/>	Save
Data Center Regions	<input type="text" value="North America (NA2)"/>	Save

You can find your data center region from the URI on the Adobe Acrobat account page.

- The **Client ID** and **Client Secret** can be obtained from the Adobe Acrobat Sign API Application
- Once you click on the App you created click on **View/Edit**. This is where you can copy the **Client Secret**. The Application ID on this page refers to the **Client ID**.

View / Edit

Application ID: CBJCHBCAABAA8js3Jtb-0QL_LVYsty8jKXqZ-ZEH3Q

Client Secrets		
Value	Created Date	Status
