

App4Legal.v7.0 Release Notes

Important highlights from this release

1. Introduced a new high-level work-space for lawyers showing upcoming tasks, hearing, etc. called My Dashboard.
2. Customize & Configure an automated account number of your choice in the money module for your clients, suppliers, etc.
3. Expanded grid functionality to include saved filters, column customization and more in invoices and expenses.
4. Revamp data model behind Docs to support integration with other solutions + Retrieve tracking version of documents.
5. Introduced a Document Generator tool allowing to save documents in a specific template format (footer/header, etc.).
6. Automated Email Notification on all system Due Dates + enhanced email template to include more needed fields.
7. Save & Add a new Expense on the fly + build an Invoice related to more than one Case for the same Client.
8. Files can now be attached on Hearings.
9. Money module improvements from account statements, labeling, invoicing and more.
