

App4Legal.v7.2 Release Notes

Important highlights from this release

1. You can now customize invoices and generate them in a template of your choice. Change the logo, company name and more.
2. Stay up to date with real-time notifications and know of every action/update on an expense.
3. You can now create quotes before generating them to invoices.
4. Created a bill or an invoice by mistake? No worries, they can now be deleted.
5. As usual, plenty of bug fixing, improvements and more.
