

App4Legal.v7.15 Release Notes

Important highlights from this release

- Log time for multiple dates (intervals) in a single form
- Users can now create Matters or Litigation Cases on behalf of customers to let them view it from the Customer Portal
- Hearing Roll Session report supports now filtering by multiple assignees
- Initiated On and Executed On fields are no longer mandatory in shares operations from Company Shareholders
- Matter Subject is called now Matter Name
- Last Hearing Date, Judgment Date & Judgment Summary are now available in the Litigation Case grid
- Import of Litigation Cases supports now a new column to link with Matter Containers
- Outsource To field supports now adding a Company (i.e. External Law Firm) and not only a Contact (i.e. External Advisor)
- Bug fixes & Minor Enhancements
