

OneLogin SSO Integration

Configure OneLogin as SAML Identity Provider:

Register an application with OneLogin and create a service principal

1. Sign in to your OneLogin account.
2. Select **Apps** **Add Apps**.
3. Search for **SAML Test Connector** and choose it.
4. Change the Display Name and Logo of the app.
5. Click **SAVE**.
6. Go to **Configuration** and setup the below:

Login URL	https://www.app4legal.com/site/xxxx/users/login_idps/onelogin
ACS (Consumer) URL*	https://www.app4legal.com/site/xxxx/saml/www/module.php/saml/sp/saml2-accs.php/app4legal-onelogin
SAML Recipient	https://www.app4legal.com/site/xxxx/saml/www/module.php/saml/sp/saml2-accs.php/app4legal-onelogin
SAML Single Logout URL:	https://www.app4legal.com/site/xxxx/saml/www/module.php/saml/sp/saml2-logout.php/app4legal-onelogin
ACS (Consumer) URL Validator*	https://www.app4legal.com/site/xxxx/saml/www/module.php/saml/sp/saml2-accs.php/app4legal-onelogin
Audience	https://www.app4legal.com/site/xxxx/saml/www/module.php/saml/sp/metadata.php/app4legal-onelogin

Login URL

https://www.app4legal.com/site/xxxx/users/login_idps/onelogin

ACS (Consumer) URL*

<https://www.app4legal.com/site/xxxx/saml/www/module.php/saml/sp/saml2-accs.php/app4legal-onelogin>

*Required

SAML Recipient

<https://www.app4legal.com/site/xxxx/saml/www/module.php/saml/sp/saml2-accs.php/app4legal-onelogin>

SAML Single Logout URL

<https://www.app4legal.com/site/xxxx/saml/www/module.php/saml/sp/saml2-logout.php/app4legal-onelogin>

ACS (Consumer) URL Validator*

<https://www.app4legal.com/site/xxxx/saml/www/module.php/saml/sp/saml2-accs.php/app4legal-onelogin>

*Required. Regular expression - Validates the ACS URL when initiated by an AuthnRequest

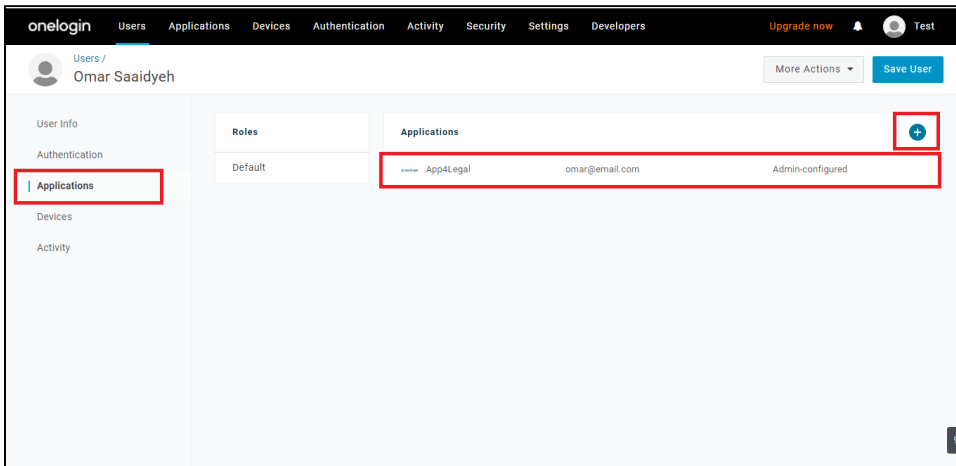

Audience

<https://www.app4legal.com/site/xxxx/saml/www/module.php/saml/sp/metadata.php/app4legal-onelogin>

RelayState

<https://www.app4legal.com/site/xxxx/saml/www/module.php/saml/sp/metadata.php/app4legal-onelogin>

- Go to **More Actions** download **SAML Metadata** (to be imported as Metadata File at Lexzur).
- Go to **Parameters** and add new field called "email" with the value of the user email.
- Go to **Users** add the concerned users to this app

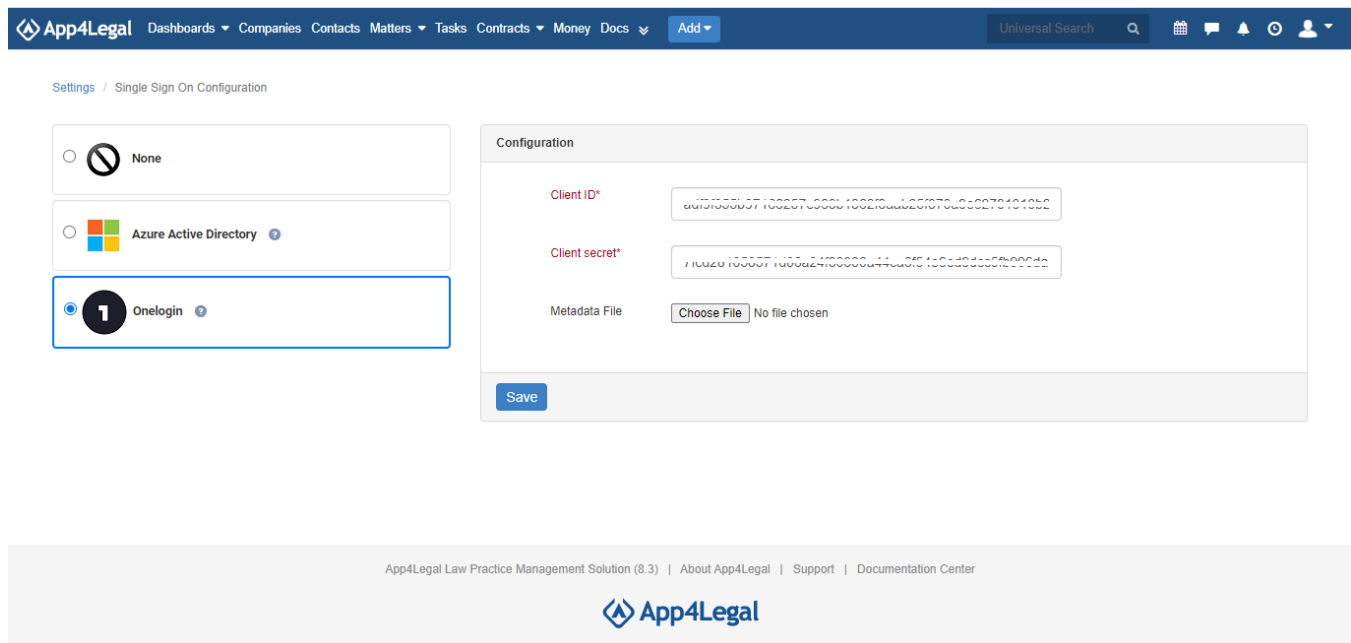

Create Client ID & Client Secret

- Go to **Developers API Credentials**
- Click New **Credentials**
- Create new API credential
- Copy **Client ID & Client Secret** (to be pasted at Lexzur).

Configure OneLogin as SAML Service Provider

Enable SSO in Lexzur

- Sign in to your Lexzur instance [Lexzur](#).
- Go to the **Settings Single Sign On Setup**.
- Select **OneLogin**
- Paste **Client ID & Client Secret** (copied before from OneLogin).
- Upload **Metadata File** (downloaded before from OneLogin).
- Click Save

Import Users from OneLogin to Lexzur

1. Go to the **Settings Users & Permissions Import Users from OneLogin**.
2. Look up the users and choose the appropriate User Group.
