

How to Add New Hearing

Objectives

- Add New Hearings for Litigation Cases

Steps

In LEXZUR, you can add hearings seamlessly via different methods.

To create a new hearing, users can effortlessly use the **"Create"** button in the navigation menu:

Also, hearings can be added under the litigation **Stages & Activities**.

The screenshot shows the LEXZUR interface with the 'Stages & Activities' section selected. The 'Appeal Court' stage is highlighted with a red box, and a red arrow points to its 'Hearings' button. Below it, the 'First Instance Court' stage is also highlighted with a red box, and a red arrow points to its 'Hearings' button. The 'Common' section is visible at the bottom.

Here, you have the flexibility to manage the stages a case goes through and add related hearings under each stage or separately.

Hearings will be listed and tracked under the stages of the litigation case. Clicking on the hearing section reveals the list of hearings related to the selected stage.

Under the **Common** section, you can add hearings that are separate and not related to any stage

The screenshot shows the LEXZUR interface with the 'Hearings' section selected. The 'Hearings' button is highlighted with a red box. A red arrow points to the 'Add new Hearing' button in the top right corner. The 'Hearings' section is expanded, showing a list of hearings with details like 'H245 - Friday, 2023-12-01 10:00'.

To add a new hearing, click on the **Actions** button -> **Add Hearing**, or from the "+" button under the Hearings section within each stage

You must fill out some fields such as the related case name, hearing date and time, and hearing type. Users can also add a custom hearing type if not found in the predefined list. Lawyers can also attach related files if necessary.

New Hearing

Name:*

M0000367: Litigation Case between ABC x Maria

Start typing to select from possible matches of matter, client or use the Matter ID ex. M10

Stage: Appeal Court

Additional details, include specifying the stage, assigning lawyers to attend the hearing, and recording time spent.

The time spent will be reflected in the related time logs of the case.

Lawyers can also add their comments before the hearing, and summaries after attending.
