

How to Add New Events

Objectives

- Insert an Event related to the stage in the database

Steps

In LEXZUR, you can add a new event in the Stages & Activities tab via the **Actions** button Add Event, or from the **Add Event** button within the Events section. You also have the option to add sub-events in the Events section.

When adding a new event, you have to fill some mandatory fields depending on the event type:

- Event type
- Subject
- Date
- Created by: it will take the logged-in user by default.
