How to Build Customized Reports

Objectives

• Create your own reports using the Report Builder

Steps

In addition to the predefined reports, users can create custom reports with the report builder and select the content they need.

To do so, navigate to "Build your Report" under the Reports Module in the main menu

The report builder allows you to build your own customized reports and select the content as desired.

You can select from a pool of items to add to the report.

Select which columns to include on your report, such as the matter Id, Name, Assignee, Practice Area, etc. Column order is adjustable.

| Reports / Build your Report Build your Report Choose | e from the saved re | eports: 🗸 | | | | | | Reset Advanced Se |
|--|---------------------|------------------|-----------------------|-------------------------|-----------------------|---|--------------|-------------------|
