

How to Add a New Litigation Case

Objectives

- Insert a Litigation Case in the database

Steps

Litigation Cases can be easily added via the quick Create button in the navigation menu:

You will be asked to fill out some mandatory fields and additional cases details:

The screenshot shows the 'Add Litigation Case' form. The 'General Info' tab is selected and highlighted with a red box. The form contains the following fields: 'Name' (required, with a red arrow pointing to it), 'Practice Area' (required, with a red arrow pointing to it), 'Arrival Date' (required, with a red arrow pointing to it), 'Client Name' (required, with a red arrow pointing to it), 'Client Position' (required, with a red arrow pointing to it), and 'Description'. The 'Name' field is filled with 'BLP Industry X Advanced Manufacturing Civil Case'. The 'Practice Area' field is filled with 'Civil'. The 'Arrival Date' field is filled with '2023-06-15'. The 'Client Name' field is filled with 'Company' and 'BLP Industry'. The 'Client Position' field is filled with 'Plaintiff'. The 'Description' field is empty. There are buttons for 'Cancel', 'send a notification', 'Save & Create New', and 'Save' at the top right of the form.

First, within the **General Info** tab, specify the name, area of practice, case arrival date, and so on...

- **Name:** Enter a name for the litigation case- this will make it easier to search for later.
- **Practice Area:** A customizable list for defining the related area of practice for this Case. For example, Criminal, Financial, Civil, Labor, Real Estate, and so on.
- **Arrival Date:** When this case reaches your office, by default, it takes the current date.

The 3 fields above are sufficient for creating litigation cases, however, you can add more information for reporting purposes.

Additionally, you can describe the matter and identify the client requesting it, search for existing clients, or add new ones on the fly, indicate the client's position, specify the internal reference number, priority and privacy, and attach any related files if needed.
