- Minor Bugs & Minor Improvements.

Issue Type	Issue Key	Summary	Description
New Feature	A4L-9902	Add Adobe Sign Partnership Feature	A new "**App4Legal Sign Powered by Adobe Acrobat"** is added to the list of available e-sign integrations. This new e-sign integration can be selected by the user upon initiating a signature workflow from the signature center in the contra module.
New Feature	A4L-9871	Support MFA on CP	Multi-Factor Authentication is now implemented for Client Portal upon sign-in.
New Feature	A4L-9564	Automate and Configure your Approval and Signature Centers based on Roles	The Business Unit and Department of each requester determine which Approval Center and Signature Center should be used for example Line Manager, Legal Review, Finance, General Manager, etc... You can predefine roles and use them later in approval and signature centers
New Feature	A4L-9212	Customize Company View Page	Admins can now customize the company view page by adding new sections (pages) with custom fields.
New Feature	A4L-9207	New secured client portal notification email	- New Add Client Portal Users form without the ability to set a password - The Client will receive a notification email to set up his password and login
New Feature	A4L-8933	Link Workflow Statuses to Approval and Signature Center Statuses	The approval process will start upon changing the status of the Contract from In Progress to Under Approval, and once the approvals are done, the contract status will be automatically changed to Under Signature, and once signed to Executed.
New Feature	A4L-8555	Contract Tasks and Reminders automation	Users are now able to automate tasks and reminders upon contract creation
New Feature	A4L-7991	New UI/UX for Matter Forms	New Add form for Corporate Matters and Litigation Cases
New Feature	A4L-9574	support secured LDAP integration	
Improvement	A4L-10036	Lock Signing Process in Emdha Signature	Only one signee can sign at a time while using the Emdha e-sign integration. Other signees that have the same rank will be prevented from signing until the current signee signs.
Improvement	A4L-9999	Client Portal - Look and feel support on the header	Additional client portal look and feel settings
Improvement	A4L-9964	Exported Invoice Name	The exported invoice is now named as follows: Invoice Number-Suffix-Client Name
Improvement	A4L-9918	Add new values to the Repeat field in Reminder	Reminders can now be repeated also every 3, 4, or 6 months
Improvement	A4L-9840	Account statement	Journal detailed description is fetched under the comments in the account statement report
Improvement	A4L-9441	Default Invoice Template	The default Invoice Template will be generated automatically upon sign-up or creation of a new entity
Improvement	A4L-9238	Send Email Notification Upon Document Versioning	Upon creating a document version, an email notification is sent to the concerned people (Requester, Contributors, assignee, contract creator, shared with users) indicating that a new version of the document has been created and specifying the user who edited the document.
Improvement	A4L-9094	Separate Hijri settings for Contracts	Users can now Enable/Disable the Hijri Calendar feature for Contracts & Documents
Improvement	A4L-8706	New Bill Accounts	Assets and Liability Accounts (in addition to Expense Accounts) can now be used in adding Bills.
Improvement	A4L-8165	Split non-billable time entry	Users can now split non-billable time entries as the case for Billable time.

Improvement	A4L-7945	Client Portal - Export list of matter/matter container requests	Client Portal users can now export the list of their matter and matter container requests for reporting purposes.
